TAOS	SFE NG	15	\$2,210	\$170		
TAOS	SFE	11	\$1,600		\$160	

\$110 for Espanola Riders

To compute the full-time rider rate divide the minimum monthly income by the number of full-time paying riders you have.

To compute the daily rate multiply the full-time monthly rider rate by 0.07 and round up to the next quarter (or dollar if you don't want to deal with coins).

The bi-weekly rate (26 payments per year) take the monthly rate times 12 and divide by 26 and round up to the next dollar.
